DETAILED ACTION

Examiner's Note

The Examiner is requesting a brief telephone interview for further discussion pertaining to this office action prior to Applicant's formal reply.

Response to Amendment

The Applicant amended independent claims 1, 5, and 8, canceled claims 2, 6, and 9.

Objected Claims-Allowable Subject Matter

Dependent claims 2, 6, and 9 were objected as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. The Applicant incorporated each claim above with its respective independent base claim. Rejection of claims 1, 3,-5, 7, 8, 10, and 11 under 35 USC 103(a) is withdrawn.

Rejection under 35 USC 112 2nd

The Applicant amended claims 8, 10, and 11 in response to the 112 2nd rejection but failed to overcome the rejection. The preamble was amended but claim elements lack language in each claim element necessary to distinguish between program code or methods. Please contact this Examiner for further discussion before submitting a formal reply.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

- 1. Claims 8, 10, and 11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.**

The Applicant is claiming a program storage medium stored therein a computer-readable program. Claims lack specificity by omitting words to the effect of claiming "program code" or "instructions" or similar meaning for each claim element. As claimed it is ambiguous as to whether the Applicant is claiming a software program embodied in a computer-readable medium for execution by a computer or methods.

- 2. Claims 1, 3, and 4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.**

The Applicant did not invoke 112 6th paragraph pertaining to claim 1. As claimed, 112 6th is not in play and therefore claim 1 lacks structural specificity necessary for the apparatus claim.
